

## Environmentally Controlled Warehouses Maritime, Land and Aerial Transportation (Cold Chain).

### ENVIRONMENTAL CONTROL SYSTEMS:

The most efficient and cost effective way to keep track of your product while it's being stored in a warehouse or in transit.

- Installation, calibration, sales and rental of temperature and relative humidity chart recorders and data loggers.
- Calibration, repairs and maintenance of equipment and monitoring instruments used in cold rooms, warehouses and incubators.
- Thermal distribution studies in cold rooms, warehouses and incubators. We have in stock over 100 data loggers to measure temperature and relative humidity.
- Sales, service and calibration of Log Tag data loggers used to monitor products that require certain specific conditions while being transported (Cold Chain).
- Sales, service and calibration of continuous monitoring systems and alarm systems used to monitor environmental conditions in areas and equipment.
- Calibration of process and laboratory instruments associated with this industry.

All our services are performed using International ISO9001 and ISO17025 Quality guidelines. Feel free to contact at [contactus@provensmart.com](mailto:contactus@provensmart.com) or 787.807.7877 us to discuss your needs and/or application.
